

The trouble is some fathers trust their daughters for life to a man to whom they wouldn't lend an umbrella for ten minutes.

CHILDREN OF THE RICH.

"Son, I'm surprised to find you playing in the mud."
"But this mud has been thoroughly sterilized, dad."
"Oh, well, go ahead with your fun."

JIMALLENETTES.

(Cynthia Democrat)
Monday was such a dull court day that it is a shame to mention it. Speaking of the hot weather, he who melts and runs away won't live to melt another day.
Something to worry about: A French judge has decided that a poodle dog is a piece of household furniture.
Mt. Lassen in California, continues to pour forth smoke and steam, and yet scientists declare there is no danger. Parties living in the vicinity, however, will be foolish to take a chance.
The Department of Agriculture has absolved the moon from any responsibility for the weather. The moon, therefore, is the only politician who has been officially removed from the wet or dry column.

Men ease up a little in their work on extremely warm days. Women can peaches.

MELANCHOLY WOMEN

Women should understand that melancholy, commonly called the "Blues," is in nine times out of ten a pure symptom of some organic derangement which should have attention. For nearly forty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for such conditions, as proved by many testimonials which we are constantly publishing from women who have been restored to health by its use.

Eat Traxel's Bread

Education is universal to the extent that the boy who cannot go to college may learn to play poker in his own community.

A novel feature of London's electrical restaurant is the standing invitation for all patrons to visit the kitchen at any time and watch the preparation of food.

The rule that when a white man meets an Indian the Indian loses a little head no longer holds good. The Indian has about reached the point where he has no land to lose.

BIG HATS ARE COMING BACK

Says Lura, Whose Unique "Lid" Is Fifty-Six Inches Wide.

New York.—To Lura Westworth, "The Hat Girl of Nebraska," goes the unique distinction of being the first woman to cross the Atlantic with a hat so big it required a whole stateroom to itself.

The other 36 creations she brought with her on the Imperator were of less average. In addition, she has 28 on the other side of the Atlantic, too precious a collection to have risked all in the same ship.

The "Imperator Hat"—the big one of course—was 56 inches across and occupied a box that four stewards bore gingerly down the pier.

"There will be no little hats next fall," said Miss Westworth, "for the big hat is coming back and coming fast."

INVESTIGATING \$40,000 LOAN

Paytor Borrowed That Sum From Lorimer's Institution.

Chicago.—Investigation of loans made by the collapsed Lorimer-Munday Bank has revealed the fact that Thomas H. Paytor, former United States Senator from Kentucky, was a borrower from that institution to the amount of \$40,000.

Senator Paytor was a member of the first Senate committee that investigated William Lorimer's right to his Senate seat. As a committee member and later on the Senate floor, he voted to exonerate Lorimer from the charges that his seat was obtained by corruption.

District Attorney Wilkerson, it is understood, has the matter of this loan under investigation, along with other phases of the Federal inquiry into the banking methods of the Lorimer-Munday combine.

National Bank Examiner Owen T. Reeves, Jr., first discovered the loan and it is understood he made a report of it to Washington. The details as reported by the bank examiner are among the things District Attorney Wilkerson will discover when he opens the reports he is scheduled to receive from the Controller of the Currency.

A man can successfully refute most of his wife's charges, but to do so requires about all of his time.

NEW INVENTION

Ditching Machine Which Performs Work of Two Hundred Men—Cuts Rod a Minute.

Lynchburg, Ohio.—A recent demonstration of the West Nile Ditching machine three miles north of town has proven the claims of the inventor, Col. Owen West, and promises to revolutionize ditching throughout the country. The claim was made that the machine could cut 100 rods of ditch in 100 minutes, 30 inches deep. A party of local citizens went to see the demonstration. A line of ditch of 116 rods was laid off, the machine was placed at the upper end, with six horses attached. A cut was made to the lower end and back to within about ten rods of the starting point, when a casting broke, which stopped the operation for the day. Col. West told the crowd to return the next day at three o'clock and he would finish the cutting of the ditch. The cutting of the ditch up to the time of the breaking of the casting was made in just 21 minutes. The repair was made and the following day the machine was started again. The start, as before, was made with six horses, and two men on the machine. Three more cuts were made, six inches at a cut, all of which were accomplished in just 27 minutes, or 58 minutes in all in cutting 116 rods 30 inches deep. Some of the crowd witnessing the cutting of the ditch figured that on this test the machine did the work of 200 men with spades and ordinary tools. After the ditch is cut and graded and the tile laid, there are at attachments put on the machine which will put the dirt back in the ditch as fast as the horses will walk.

FOR SALE!

We have for sale the home of Mrs. H. C. Smith on East Fifth street. This is a two-story seven-room house in good repair, with water and gas in the house. There are two lots that go with the house. These lots run from Fifth back to Sixth street. We do not hesitate to say that this is a very cheap place at the price asked for it, and if you are looking for a medium priced home we don't think this one can be duplicated in our city at the price asked—\$1,850.00.

HUMAN SKELETON FOUND IN WOODS IN HARRISON COUNTY

A human skeleton was discovered by the children of Mrs. Wiley Taylor in the woods near Cynthia whether they had gone to gather wild flowers.
The remains were declared to be those of Daniel Morrison, a man about seventy years old, the identity being established by bits of clothing and an overcoat that was recognized by one of his sons as belonging to his absent father. Morrison has been missing since May 2nd. His children concerned themselves little, thinking he had gone to Missouri for a summer outing, or had taken a trip to the mountains.

\$80,000 CATTLE DEAL

Monte Fox Buys More Than 700 Head in Montgomery County.

Mt. Sterling, Ky., June 25.—Monte Fox, of Danville, purchased in this county today more than 700 head of fancy steers, averaging 1,450 pounds, for which he paid 8 to 8½ cents. These are the first big cattle sold this summer and the prices paid were money-makers for the handlers. Some cattle men believe that the price for big cattle will materially advance within the next few weeks. The cattle bought by Mr. Fox brought approximately \$80,000.

Fats Make the Hottest Fire

And as the digestion of food generates body heat, so the more greasy, heavy food you eat, the hotter you are.

One can feel several degrees cooler and more comfortable in summer by selecting proper food.

Grape-Nuts

is made of carefully selected wheat and barley and contains all their nutritive values, including the mineral phosphates, (grown in the grain), that are especially necessary for rebuilding the tissue cells of body and brain.

Grape-Nuts is thoroughly baked (16 to 24 hours) which breaks down the starch cells. Therefore it is easily and quickly digested—generally in about one hour.

If you care to feel cool and fit make Grape-Nuts a part of the summer diet—a delicious part!

PAYS TRIBUTE

To Ben F. Thomas, the Mays-Man Who Was So Highly Esteemed in the South

A Man of Worth and Founder of the Famous Coca-Cola Drink

(Chattanooga Times, June 25.)

B. F. (Benjamin Franklin) Thomas died in the early hours of yesterday morning at the Brighton hotel in Atlantic City, where, with Mrs. Thomas, he had been a guest for the last three weeks. Mr. Thomas suffered a paralytic stroke several months ago, the result of Bright's disease, the affliction responsible for his death. Despite the severity of the paralysis, Mr. Thomas succeeded in overcoming the more serious results of the stroke. He regained his speech, lost temporarily, and although greatly debilitated, recovered the use of almost every function affected. Meantime his mind retained its usual vigor and his indomitable spirit was maintained. With marked improvement that followed the first few weeks of suspense it was hoped by relatives and friends that he would be spared for several years, but his physicians, cognizant of the deeper-seated malady, gave little encouragement. If Mr. Thomas himself realized the hopelessness of his case, he gave no sign to friends. During the months of his illness, when intermittent improvement would permit friends to call he was always the same brave, genial gentleman he had been in good health. His splendidly-equipped mind was alert as ever, and he retained the same forceful grasp upon matters that concerned his friends and himself.

Three weeks ago Mr. Thomas determined to seek the benefit of the seashore. Accompanied by Mrs. Thomas, Mr. J. F. Johnston and a trained nurse and attendant, he made the trip to Atlantic City in a special car. It was during the excessive heated spell and the journey severely taxed his strength, but he readily responded to the change, and for the first two weeks a marked improvement was noted. Last week, however, his condition changed for the

MAURICE COSTELLO AND MARY CHARLSON IN "HER BIG SCOOP"

Music By Gem Trio Orchestra.

Worse and became critical by Monday of the present week.

With Mr. Thomas when he died were Mrs. Thomas, her sister, Mrs. Skinner, and Dr. Johnson, who happened to be in Atlantic City attending the American Medical association. George Hunter, Mr. Thomas' nephew, reached Atlantic City early yesterday, a short while after his uncle's death.

The funeral will be Saturday, in Marysville, Ky., the old home of the deceased. Several of Mr. Thomas' business associates and intimate friends leave here today for Marysville to attend the funeral. Among the number are E. Y. Chapin, W. M. and Theodore Linsley, J. F. Johnston, Capt. Lyerly and R. B. Cooke.

Was a Man of Much Moment.

This community loses a man of consequence and moment in the passing of Ben Thomas. "Rare" Ben Thomas his friends designated him. He was richly endowed with the virtues that command admiration, his mind stored with rare knowledge and his companionship a never-ending delight to his intimates. He detested sham and was fearless in exposing it in whatever form it might be presented. Resplendent among the many virtues he possessed was his sincerity, sincerity of conviction, sincerity of purpose. He rang true because he was true in every relation of life.

Mr. Thomas was in his 52nd year. He was born in Marysville and educated at the University of Virginia. His first business experience was secured in a Marysville bank, which he left shortly after attaining his majority, to engage in the stone business. He owned and operated an extensive quarry on the banks of the Ohio. His next venture was the first hosiery mills in Marysville, which he owned and operated for several years.

In 1885 Mr. Thomas entered the Cincinnati Law school, boarding in Covington, Ky., and going across the Ohio to lectures each day.

The Hon. John W. Stevenson, ex-senator from Kentucky, was his warm friend, and Mr. Thomas had a desk in the law office of Stevenson & Goebel. There he formed a close intimacy with Gov. Goebel which lasted until the latter's assassination. Gov. Goebel twice visited Mr. Thomas in Chattanooga.

Graduating from the Cincinnati Law school in 1887 he went to Kansas City for a few months, coming from there to Chattanooga upon the invitation of E. Y. Chapin, his schoolmate and friend.

Beechwood

Tonight!

Upon his arrival, the law firm of Wiltse, Thomas & Chapin was formed. He left this firm in 1889 to become a member of the firm of Pritchard, Sizer & Thomas, continuing in that association until 1895, when he left the practice of law to enter the street paving business in association with W. M. and T. H. Linsley. He continued in that firm until 1898, when he disposed of his interests and accepted a responsible position with the United States Government in Cuba. While in Cuba he was attracted by the wide sale of a carbonated drink, called campaign cola, and set about devising a similar one for sale in the United States. In the course of his investigation he came upon coca-cola, a soda fountain syrup made at Atlanta, and finding it had all the qualities he desired, he in association with the J. B. Whitehead and J. T. Lupton, entered into a contract with the coca-cola company of Atlanta, which gave them the exclusive right to bottle that beverage.

Later he became president of the Coca-Cola Bottling company, controlling the bottling of the beverage in about one-half of the United States. With this enterprise he was engaged until his death. It made him a splendid fortune, the bulk of which he invested in Chattanooga and Lookout mountain property and in various industries here.

Mr. Thomas was married in 1894 to Miss Anne Taylor, of Cincinnati. Other survivors are two sisters, Mrs. E. T. Hunter, of Marysville, Ky., and Mrs. Bessie Jones, of San Diego, Cal. George T. Hunter, a nephew, has been Mr. Thomas' assistant in his office.

Mr. Thomas was an ardent exponent of Lookout mountain, and a promoter of many improvements there. He advanced the township money for the purchase and beautification of a park and was one of the larger owners of mountain real estate. He was one of the organizers of the American Trust and Banking company, and also of the Administration and Trust company, of which he was vice-president.

He was president of the recently organized Mountain Club, one of the governing board of the Mountain City club and a member of the Golf and Country club.

Mr. Thomas' friends frequently implored him to stand for public office, but, while always taking a deep interest in politics, he preferred "the ranks," as he expressed it. The only public office he could be induced to accept

cept was that of school commissioner. While serving the city in that capacity he became an enthusiastic advocate for the establishment of a manual training school, and offered to equip at his own expense the institution.

Mr. Thomas was a liberal contributor to causes that enlisted his interest but was so uncompromising in his aversion to ostentation and whatever might suggest it, he invariably conditioned his giving on secrecy. It was learned only yesterday that a few weeks ago he sent his check for \$1,000 to the endowment fund of the University of Chattanooga.
